13A Gunanada Mw, Colombo 13800

Our standard gangways are normally one metre wide with the length dependant on customer requirements.

Gangways come complete with a non-slip walking surface, heavy duty securing lugs on the shore side and rolling wheels on the lower pontoon side.

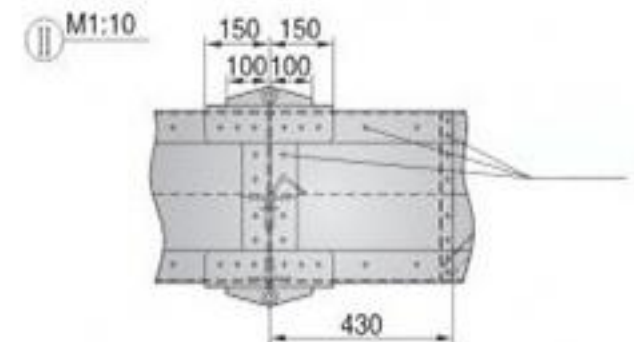

The hand railing used on our gangways also complies with BS MA 78:1978 but where the gangway is used at a severe incline, the height of the handrail is increased and non-slip slats are laid across the flooring to give

**At Seavista Enterprises (pvt) Ltd,
Gangways are available in**

- > Galvanized Steel
- > Cast Iron
- > Aluminium

**All crafted with global standards
and precision.**

Model	L (mm/ft)	H (mm/ft)	W (mm/ft)	Weight
